Introduction

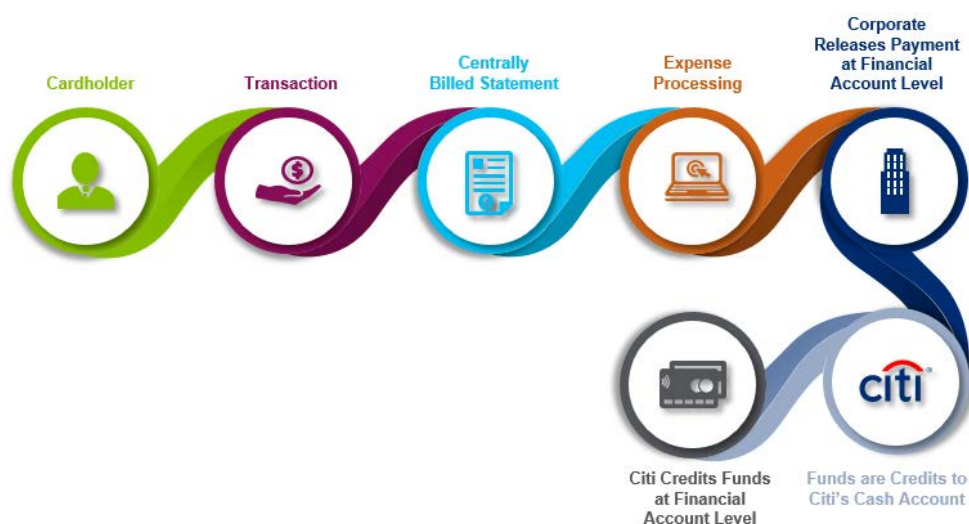

Choosing the appropriate payment method and making payments in a timely and accurate manner is essential to ensure the smooth operation of a commercial cards program.

Citi offers to clients the ability to make payment in a variety of ways.

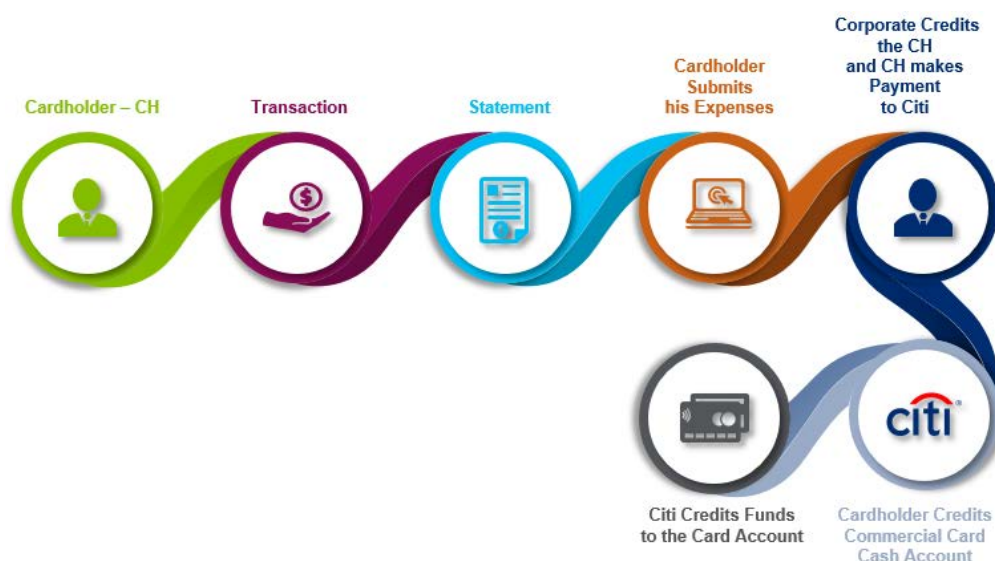

During program creation, Implementation Manager will present different payment methods supported by Citi in each region depending on billing type and program country scope.

There are three main billing types available with some limitations, depending on country/region capabilities (more details in regional sections of present guide):

- **Centrally Billed Central Pay (CBCP)** – all of the cards issued for employees of your company are linked to centrally billed account(s). Company should make payments based on the statement generated for centrally billed account (financial account). Each centrally billed account has a specific 16 digits number, available on the top right corner of statement, that should be provided together with payment transfer to allow allocation.

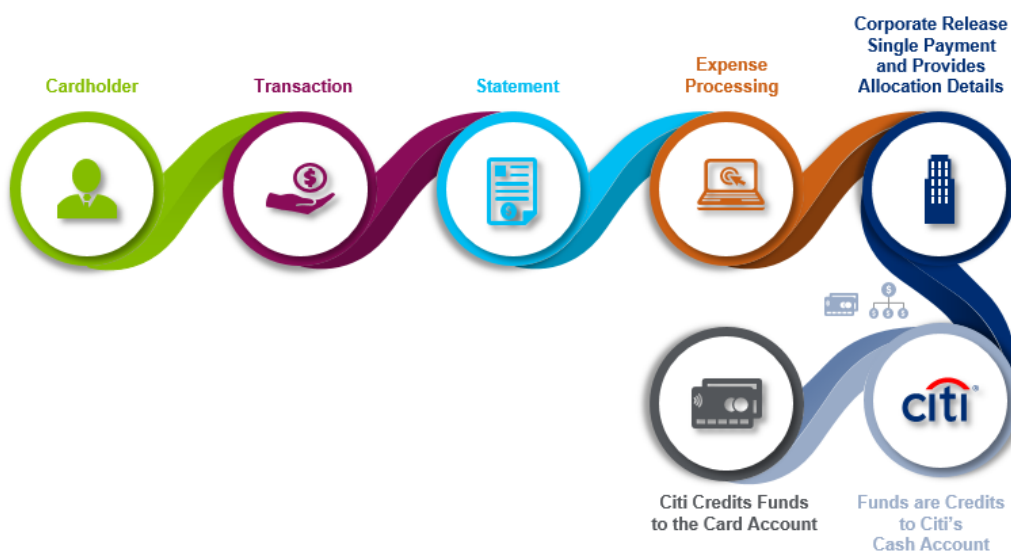

- **Individually Billed Individual Pay (IBIP)** – cardholders are responsible for making payments individually directly to Citi. 16 digits of card number should be provided together with payment details to allow allocation:

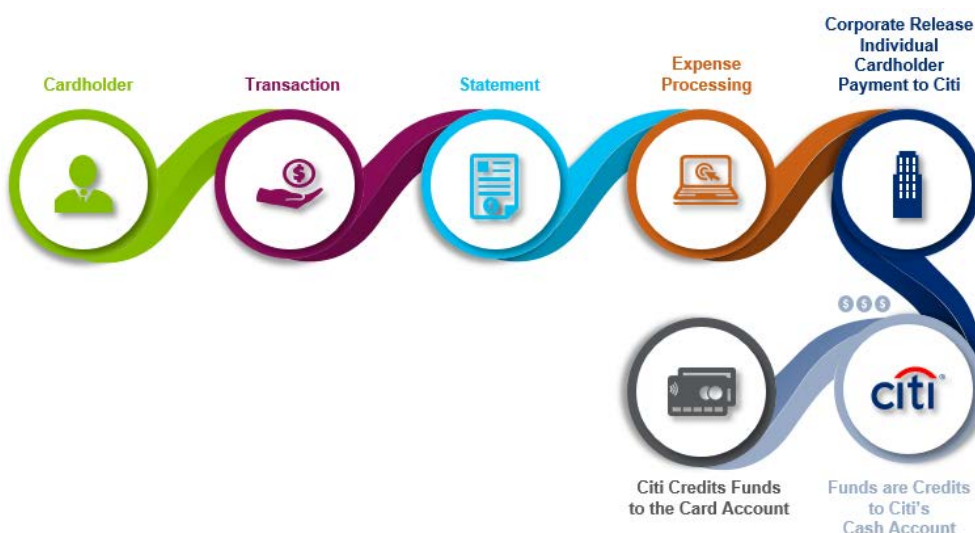

- **Individually Billed Central Pay (IBCP)** – cardholders have individually billed cards, but payment is done in bulk. Company can decide to pay for many cards with one payment (**Combi/Single Pay**) or for each card separately (**Multi Pay**). In case of Combi/Single Pay option, client will need to provide remit file with payment allocation details. For Multi Pay it is sufficient to provide 16 digits of card number in transfer reference field and allocation will be done automatically. Combi Pay and Single Pay are both available for bulk payments with the main difference of who is making the payment. Combi Pay allows Citi to receive combined payments from both the client and the cardholder. The client making payment on behalf of cardholders for approved corporate spend only. Any remaining balance is then paid by the cardholder directly to Citi, this would typically be made up of personal spend or expenses not meeting the company's corporate expense policy. For Single Pay, mandatory in European Economic Area, only company can make payment on behalf of cardholders and payment received directly from cardholders will not be accepted. Remit file with allocation details should be sent by the company in both options.

Combi / Single Pay – company is making bulk payments on behalf of employees providing separate remit file with payment allocation details

Multi Pay – company is making individual payments on behalf of cardholders. To allow payment allocation, company should provide 16 digits of employee card number in transfer details.

Once payment options is selected, Implementation Manager will guide you through the setup that can take from several days to several weeks, depending upon the existing capabilities of your payments or disbursement area to support the electronic requirements, and how quickly the testing process completes.

As testing is a critical component of the payment project, Implementation Manager will monitor first payment cycles before the program is handed over to Customer Account Specialist.

After the initial implementation, changes to payment process may involve additional cost and will require support from Customer Account Specialist.

Global overview of payment options available in countries with local currency countries:

In most of the countries where local currency programs are not available, Citi can offer International Payment Card (IPC). Those cards are issued from US, UK, IE or UAE Citi entity and the currencies available are USD, EUR (IPC IE entity only) and AED.

However it is important to remember that IPC is not offered as standalone product and can be offered if your company already has other program with Citi. IPC cards are established as Centrally Bill Central Pay (CBCP) only.

Taiwan	TWD			Y	Y				Y
Thailand	THB		Y	Y	Y				
Vietnam	VND				Y				

Country details

Australia

	Billing Currency	Wire Transfer	Cheque	BPay	Direct Debit
IBIP / IBCP / CBCP	AUD	Y (CBCP / IBCP)	Y	Y (IBIP)	Y

Wire Transfer bank details

Bank	Citibank
Currency	AUD
Account Name	Citibank Commercial Cards
Account Number	205570004
BSB Code	242-000
Allocation Details	PA must upload remittance file in CitiManager library for payment allocation

Cheque

Cheque payment should be made to Citibank Commercial Cards, copy of the first page of the statement to be provided together with cheque (required to process the payment) and 16-digit card/account number on the reverse side of the check

Cheque should be sent by mail to:

Citibank Commercial Cards
GPO Box 4765
Sydney NSW 2001

BPay Details

Cardholders can make payments via BPAY system. Details available at www.bpay.com.au

BPAY Biller Code: 49718

Cardholder should indicate 16 digits of card number in transfer reference field

Direct Debit

Instruction for company or cardholder bank authorising Citi to automatically collect the amount due from the statement, on the payment due date.

To setup DD, client should complete Direct Debit Request Form and send it to:

aspaccommcard.rebate.refund@citi.com

Customer Service Team will be able to provide most up to date Direct Debit Request Form.

China

	Billing Currency	Direct Debit	Wire Transfer
CBCP / IBCP	RMB/USD	Y	Y

Direct Debit

Instruction for corporate or cardholder bank authorising Citi to automatically collect the amount due from the statement on the payment due date.

To register for Direct Debit, please contact our Customer Service for a Direct Debit.

This method applies only when settling RMB bill payments with an RMB account opened with Citi.

Wire Transfer

To make sure that payment is allocated correctly, please provide 16 digits of billing account number together with full payment amount (as indicated on the statement). The USD repayment amount stated in the payment details should also not exceed the current balance for USD repayment.

Payment details will be different depending if you are using Citibank China or third-party bank account:

1. Citibank China Co. Ltd.

If you are paying from account held with Citibank China Co., Ltd (CCCL), Citi provides the nominated collection accounts for program payment

Account Number	Account Description	Account Name
9896341011	Collection A/C-EFT-RMB	花旗银行商务卡一般还款（人民币）账户
9896340007	Collection A/C-EFT-SD	花旗银行商务卡一般还款（美元）账户
9896671011	Collection A/CDD-RMB	花旗银行商务卡直接付款（人民币）账户

2. Other Banks

If you will pay from an account at a third-party bank, a transactional base number (dummy account) will need to be opened with Citi. Under this circumstance, RMB / USD dummy account is necessary and would be setup automatically according to the card currency and repayment currency (RMB or USD).

Account Number	Account Description	Account Name
xxxxxxxxxx	Dummy Account	公司名称

Due to varying processing times for different payment methods, we suggest to instruct payment no later than the time listed below

Payment Scenario	Payment Due Date on Statement is T
RMB (RMB account with Citi) → RMB	T-3
RMB (RMB account with a third-party bank) → RMB	T-5
USD (USD account with Citi) → USD	T-3
USD (USD account with a third-party bank) → USD	T-5
RMB (RMB account with Citi) → USD	T-3
RMB (RMB account with a third-party bank) → USD	T-5
RMB → RMB (direct debit)	T-3

Wire Transfer Payment Procedures

Account Number (USD)	006-391-61561096
SWIFT	CITIHKHX

Cheque Payments (HKD)

Crossed cheque should be sent together with the payment slip to Citi at least 5 working days before the Payment Due Date.

Cheque Payment Reference Details:

- For Company payments – please indicate “Company Name – Combi Pay” on the reverse side of the check
- For Individual payments – please indicate 16-digit card number on the reverse side of the check

Cheque should be sent by mail to:

Citibank N.A., Hong Kong Branch
P.O. Box 9853,
General Post Office,
Hong Kong

Note: Do not deposit cheque over-the-counter or in drop box at Citibank branch

Direct Debit (HKD)

Instruction for corporate or cardholder bank authorising Citi to automatically collect the amount due from the statement on the payment due date. The Direct Debit will be executed on previous working day if the due date falls on public holiday.

Citibank will arrange Direct Debit authorisation setup with debtor's bank upon receipt of original copy of valid Direct Debit form.

It takes around 4–6 weeks for setup and subject to final confirmation from the debtor's bank. Citi will notify the Program Administrator and cardholder once Direct Debit is completed.

If desired, PA should e-mail and request to receive receipt of acknowledgment.

Direct Debit Authorisation (DDA) should be sent to:

Autocollect Section
Citibank N.A., Hong Kong Branch
9/F, Citi Tower, One Bay East
83 Hoi Bun Road
Kwun Tong, Kowloon, Hong Kong

Note: Debtor's Reference on the DDA form is mandatory. It is the 16-digit Master Billing Number for Company Pay and 16-digit Card Number for Individual Pay.

Payment by Phone Service (PPS) (for Individual Pay Only)

Cardholder can use PPS to settle payment by transferring funds from a designated HKD savings or current account via any touch-tone phone or Internet.

Payment should be made at least 1 working day before the Payment Due Date.

PPS merchant code is **9160**

PPS payment account number = **16-digit card number**

More information can be found at: <http://www.ppshk.com>

Allocation details	• CBCP: Account number from the statement • IBIP: 16 digits card number/Exact amount from the statement

Note: Local RTGS is known as MEPS in Singapore. Does not include support for FAST.

Citibank Online (IBIP)

Cardholders who are also Citi Singapore Consumer Bank clients may make corporate card payment by accessing Citibank Online. Please allow 3-5 working days for processing

A one-time payee setup will be required. Under add payee menu, select payee type as "Pay Anyone (within Singapore) – Pay other Bank's Credit Card", Bank Name as "CITIBANK N.A., SG BRANCH-CORPORATE CARD", and enter your 16 digit card number under Account Number. For more information on adding payee, you may visit:

https://www.citibank.com.sg/gcb/otherservices/Add_Payee.htm

Direct Debit

Instruction for corporate or cardholder bank authorising Citi to automatically collect the amount due from the statement on the payment due date. To register for Direct Debit, the Program Administrator may contact Customer Service for the Direct Debit Authorisation Form.

AXS Payments (IBIP)

Cardholder may make payment through strategically located AXS machine, available 24/7, using the cardholder's ATM card or cash card.

Alternate AXS channels includes AXS e-station (online website for bill payment over the internet) and AXS m-station (downloadable mobile bill payment application for bill payment via mobile devices)

The single transaction limit of payment modes offered on each AXS for credit card bill payment as follows

AXS Machines	e-station	m-station
SGD 3,000	SGD 9,999.99	SGD 9,999.99

Payment made via AXS after 5pm on weekdays will be processed by AXS on the next working day and the funds collected will be posted against the cardholder's corporate card within the next 3 working days. Payments made on weekends and public holidays will be processed on the next working day.

Please visit <http://www.axs.com.sg> for instructions on how to use the e-station and m-station application.

Cheque

Cheque payments should be issued to "Citibank NA, Singapore branch". Please allow 5 working days for processing. Allocation details should be provided on the reverse side of the cheque (16-digits card number for cardholder payments/16 digits account number for company payment)

Cheque should be sent by mail to:

Citibank NA, Singapore Branch
Item Processing Unit
Robinson Road P.O. Box 3050
Singapore 905050

i-Cheque (IBIP)

For cardholder's bank that supports issuance of cheque through internet banking, a cheque will be mailed out on the cardholder's behalf from the cardholder's bank to Citibank. Please allow at least 5 working days for processing. To allow correct payment allocation, cardholder should include 16-digit commercial card number in the "message" or "reference" field.

i-cheque should be sent to:

Citibank N.A., Singapore Branch
Item Processing Unit
Robinson Road P.O. Box 3050
Singapore 905050

Indicate the following details in the Payment Reference / Details Section:

- Cardholder's individual Credit Card Account Number

Note:

1. Please ensure all payments are made from VND account only
2. For payments from Individual accounts (non-Corporate), we are unable to accept / support payments from Citibank Vietnam. This is only impacting Citibank Vietnam accounts opened by individuals only
3. Please ensure the "Account Name" (highlighted in green) is an exact match when making a payment to Citi. Payments will be rejected if the "Account Name" is not an exact match

2. Europe, Middle East and Africa Region (EMEA)

Payment Options Available

In EMEA region Citi offers various payment options depending on the market and program type.

Commercial Cards programs are offered in 3 standard types (CBCP, IBIP and IBCP) with some limitations due to EU Interchange regulation concerning cardholder payments:

- Individually Billed Individually Paid (IBIP) – This option is not offered in European Economic Area (EU countries: Austria, Belgium, Bulgaria, Croatia, Republic of Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, UK.+ Norway and Switzerland) as cardholder payments are not allowed due to Interchange EU regulation. Available only in Egypt, Kenya, Kuwait, Nigeria, Pakistan, South Africa and UAE
- Individually Billed Centrally Paid (IBCP) – Offered in most of EMEA countries except for Israel, Kazakhstan, Pakistan, Russia, Turkey and Ukraine.

To ensure timely and accurate allocation of your payments please make sure that all payments are appropriately referenced. For Single Pay (payment method offered for Individual Billed programmes, which allows a client to make a single bulk payment to Citi for employee expenses) please send remit file with allocation details and in case of Multi Pay (individual payments made by company for each card separately) please make sure 16 digits of card/account number are indicated in bank transfer details.

Please also remember that for Middle East countries (UAE, Egypt and Kuwait) business week is from Sunday to Thursday, which in some cases may have influence on payment allocation timelines.

Similar to other regions, also in EMEA, payment options can be split into 2 main groups:

- Electronic Funds Transfer (EFT) – most common payments option in EMEA. Depending on the country, there can be different local options (e.g. ACH, Wire Transfer, Direct Debit etc.)
- Cheques

	Cheque	Electronic Funds Transfer	Direct Debit

UAE		Y	Y
UK		Y	Y
Ukraine			Y

Electronic Funds Transfer

This payment option can be split into 3 main types: wire transfer, ACH and Direct Debit (Standing Instructions)

A **wire** is a real-time method of transferring immediate funds and supporting information between two financial institutions.

An **ACH** is similar to a wire transfer with the main difference that ACH uses a batch process and is available only for domestic transfers, when wire transfer can be used for international payments.

It is recommended that transfers are sent to Citi at least 2–3 days prior to payments due date to make sure funds are received on time and late payment fees are not calculated.

As Citi holds one account per currency/country (remittance information available on the last page of monthly account statement), it is that crucial that full allocation details are provided together with the payment. Depending on how the payment is sent, you can select one of below listed options to provide allocation details:

- Single Pay – single bulk payment made for more than one card/account. Company will be asked to provide remit file either via CitiManager Library or as a file feed from Expense Management System using remit file format. Total of cardholder expenses listed in each remit file should exactly match the value of payment received (one payment = one remit file = one currency). If the amounts don't match or if there are multiple currencies listed in one file, Citi will not be able to allocate payment automatically and additional clarifications will be required. Debit entries are not supported for EMEA and can affect file processing. File should include only credit (payment) values, debit values will not be recognised and file will be rejected.
- Multi Pay – One payment made for one card/account. Company will be asked to provide full 16 digits of the card/account directly in transfer details. No additional information or remit file is required.

Direct Debit (DD) – An instruction for corporate or cardholder bank authorising Citi to automatically collect the amount due on the payment due date. Payment will be collected on monthly basis (or as per the payment cycle selected during program implementation), based on the statement generated for card or account.

In most of EMEA countries, DD can be setup only for company payments as cardholder payments are not allowed in EEA. Individual DD payments are available only in South Africa, Nigeria, UAE.

Commercial cards support both Single Euro Payments Area (SEPA) DD and Domestic DD (Non-Euro Countries).

SEPA DD is available in 13 countries (company payments only): Austria, Belgium, Finland, France, Germany, Ireland, Italy, Luxembourg, Netherlands, Portugal, Slovakia, Spain and UK (EUR)

SEPA DD can be activated directly in CitiManager by Program Administrator

To complete online DD mandate in CitiManager you will need to provide:

- IBAN (International Bank Account Number)
- SWIFT BIC (Bank Identification Code)
- Account Holder name

Note: Please ensure that IBAN and SWIFT BIC provided are the correct SEPA IBAN and SWIFT BIC as provided by your bank. If you are not sure, please contact your bank for these reference numbers. Your Direct Debit will fail if this information is not accurate

It takes up to 10 business days for Citi to process a Direct Debit Application, so if the payment is due before this time, company should make alternative payments arrangements.

A confirmation email will be sent once the Direct Debit is set up successfully.

Domestic DD is available in selected other markets: Bulgaria, Czech Republic, Denmark, Hungary, Israel, Kazakhstan Kenya, Nigeria, Poland, South Africa, Sweden, Switzerland, UAE, Turkey, UK, Ukraine

Each country will offer different DD mandate with special requirements depending on the market. Detailed instructions are provided in each DD mandate form that can be found in CitiManager → Resources → View FAQ.

SEPA Direct Debit Setup

Mandate from Client to Citi	CM online
Mandate to Debtor Bank	No Mandate
Confirmation from Debtor Bank	No
Setup Requirements	BIC 11 digits / IBAN 27 digits
Timelines	You should enrol/modify SEPA DD at least 10 business days prior to the Payment Due date for the DD to get activated within same cycle, else DD would be effective from next due date

Note: It is possible that your bank may require your Mandate Reference Number (individual number generated automatically by Citi system when new SEPA DD mandate is submitted) to complete your Direct Debit setup, therefore Citi advises that you check with your bank whether this is required before applying for a Direct Debit. If it is required, after successfully setting up a Direct Debit with Citi (10 days from initial Direct Debit application) you will receive an email confirming your Mandate Reference Number. If your bank has confirmed that they need the Mandate Reference Number, then provide the number to them to complete the Direct Debit setup.

Kazakhstan

	Billing Currency	Direct Debit	Wire Transfer
IBIP / IBCP / CBCP	KZT	Y	Y

Direct Debit is set up as part of the contract signed between the client and Citi. Client will indicate bank account details for commercial cards payments and setup will be done by Citi without additional documents. DD setup can be established to the Client's current account with Citibank Kazakhstan.

Alternatively, client can make payments via standard wire transfer. For Individually Billed/Individually Paid Commercial Cards program such payment option will be made available in 1Q19, whereas an Individual will have to provide full 16 digits of the Commercial Card number in reference field to allow allocation. Wire transfer is available only for KZT.

3. Latin America Region (LATAM)

Payment Options Available

LATAM, similar to ASPAC is less centrally regulated than NAM or EMEA. Each country would follow internal laws and offer different payment options. Many of the countries in LATAM are still managed through local consumer platforms.

Currently Argentina, Brazil and Puerto Rico are supported from global platform but in 2019 Citi plans to finish migration of Costa Rica, El Salvador, Guatemala, Mexico, and Panama.

This will allow us to offer a more global approach and a wider variety of products and program types.

Direct Debit

Instruction for corporate or cardholder bank authorising Citi to automatically collect the amount due from the statement on the payment due date.

CitiDirect

Electronic Banking System, in which the Company generates a payment instruction debiting their account and crediting the cards account. The payment method is Book to Card and can be done as a single transaction or file upload. Payments are made through layout instruction (Paylink 1024) or manual input

ACH

Cardholder can make payment using Pago Mis Cuentas network.

Branch

You can make payment directly in bank branch providing amount from the statement and 16 digits of card/account where the payment should be allocated.

Brazil

	Billing Currency	CitiDirect	Branch (Boleto)	Electronic Boleto
IBIP / IBCP / CBCP	BRL	Y	Y	Y

Citidirect

Electronic Banking System, in which the Company generates a payment instruction debiting their account and crediting the cards account. The payment method is Book to Card and can be done as a single transaction or file upload. Payments are made through layout instruction (Paylink 1020) or manual input.

Boleto

Most common invoice payment solution available in Brazil. For each statement cycle, Citi system will generate invoice with barcode (both for IB and CB programs). Your company will be requested to make payment using the barcode provided on the invoice.

Electronic Boleto

Client receives an electronic version of the *boleto* in its online banking and authorises the debit to the account each month. DDA option is available at nearly all banks in Brazil.

Colombia

	Billing Currency	CitiDirect	MisPagos (ACH)	Branch	Direct Debit
IBIP / CBCP	COP	Y (CBCP)	Y (IBIP)	Y	Y

CitDirect

Electronic Banking System, in which the Company generates a payment instruction debiting their account and crediting the cards account. The payment method is Book to Card and can be done as a single transaction or file upload. Payments are made through layout instruction (Paylink 1020) or manual input

MisPagos al Día (ACH)

Payment available via website www.mispagosaldia.com

In order to make payments cardholder should register to portal and create new contract/company for transfers "Citibank Tarjetas Comerciales". When system asks for Contrato/Cuenta – 16 digits of card/account number should be provided.

MisPagos can also be used to set up Direct Debit

Branch

You can make payment directly in bank branch providing amount from the statement and 16 digits of card/account where the payment should be allocated.

Direct Debit

Instruction for corporate or cardholder bank authorising Citi to automatically collect the amount due from the statement on the payment due date.

Costa Rica

	Billing Currency	CitiDirect	Direct Debit	ACH/Wire	Branch
CBCP	CRC / USD	Y	Y	Y	Y

CitiDirect

Option available for clients using Banco CMB (Costa Rica) S.A. Depending on payment currency different Banco CMB account should be selected:

- CRC – please use account 0001000047
- USD – please use account 0001000055

When making payment, it is important to indicate 16 digits of card/account number to allow allocation.

Direct Debit

Instruction authorising Banco CMB (Costa Rica) S.A. to collect the statement amount from your company Bank account.

You can make payment directly in bank branch providing amount from the statement and 16 digits of card/account where the payment should be allocated.

Dominican Republic

	Billing Currency	Direct Debit	ACH
CBCP	DOP	Y	Y

Direct Debit

Instruction authorising Citibank, N.A. Sucursal República Dominicana to collect the statement amount from your company Bank account.

ACH

Your company creates a Payment Instruction from account in another bank.

El Salvador

	Billing Currency	CitiDirect	Direct Debit	ACH	Branch
CBCP	USD	Y	Y	Y	Y

CitiDirect

Your company will create a Payment Instruction "Book to Card" from client saving or corporate checking account.

Direct Debit

Instruction authorising Citibank N.A., sucursal El Salvador to collect the statement amount from your company Bank account.

ACH

Your company creates a Payment Instruction from account in another bank. To avoid rejected payments, it is very important to select Citibank N.A. sucursal El Salvador, as the Beneficiary ACH Bank, and correctly include the 16-digit card number of the beneficiary of the funds. For transaction code please select "Pago de Tarjeta de Crédito/Credit card payment"

Branch

You can make payment directly in bank branch providing amount from the statement and 16 digits of card/account where the payment should be allocated.

Guatemala

	Billing Currency	CitiDirect	Direct Debit	ACH/Wire	Branch
CBCP	GTQ/USD	Y	Y	Y	Y

Direct Debit

Instruction for corporate or cardholder bank authorising Citibank N.A., Sucursal Guatemala to automatically collect the amount due from the statement on the payment due date

CitiDirect

Option available for clients using Citi account. Depending on payment currency, different Citi account should be selected:

- GTQ – please use account 0090245066
- USD – please use account 0090245139

When making payment, it is important to indicate 16 digits of card/account number to allow allocation.

ACH/Wire

a) Transfer details for payment from Citibank New York account:

Beneficiary Bank:
Citibank N.A. Guatemala Branch
Account number: 36073519
Addressing method: Fedwire Routing Number
ABA: 021000089

Allocation details:
Pago tarjeta de crédito
16 digits of card/account number

b) ACH payments from different banks. It is important to indicate Citibank N.A. Sucursal Guatemala as beneficiary bank for ACH transfer and indicate 16 digits of card/account number where the amount

should be allocated. When making payment please select “Tarjeta de Crédito/Credit card” as payment method.

Branch

You can make payment directly in bank branch providing amount from the statement and 16 digits of card/account where the payment should be allocated.

Mexico

	Billing Currency	CitiDirect	Direct Debit	ACH/Wire	Branch
IBIP / IBCP / CBCP	MXN	Y (CB)	Y (IBIP&CB)	Y (Wire – IBCP)	Y

Online (CitiDirect, BNet Personal and BNet Empresarial)

CitiDirect, BNet Personal and BNet Empresarial are online payment options available to centrally billed clients. Payment request will be made through layout or Personal/Business Bancanet indicating the card number, amount and date of payment.

Direct Debit

Authorisation to monthly charge your company Banamex checking account to cover the total payment of Corporate card (Direct Debit).

- Program Administrator makes a phone call to Customer Service requesting the Registration, Discharge or Maintenance of the Domiciliation Service
- Customer Service delivers a folio number and sends by email the formats that must be completed and delivered by the client to Corporate Window a for execution
- Your company delivers the original formats to the Corporate Window
- If the format is accepted, request will be processed

ACH/Wire (IBCP Only)

Standard bank transfer from any bank account to CitiBanamex. Interbanking payments are only accepted for Combi-Pay (Individually Billed/Centrally Paid) accounts, in which client sends payment together with the remittance file with the allocation details.

Bank	Tarjeta BANAMEX SA de CV Sofom ER

Beneficiary Bank Name	Citibank N.A. Sucursal Panama
Bank Routing Code	003
Beneficiary Branch Code	0001
Beneficiary Account Type	Checking
Description	Payment of the Corporate Card No. (16 digits) from (Company)

Direct Debit

Instruction for corporate or cardholder bank authorising Citi to automatically collect the amount due from the statement, on the payment due date.

Branch

You can make payment directly in bank branch providing amount from the statement and 16 digits of card/account where the payment should be allocated.

ACH

Your company creates a Payment Instruction from saving or checking account from another bank. To avoid rejected payments, it is very important to select Citibank N.A. Panama branch, routing code 003, as the Beneficiary ACH Bank, and correctly include the 16-digit card number of the beneficiary of the funds.

Peru

	Billing Currency	Direct Debit
CBCP	PEN / USD	Y

Direct Debit

Instruction for corporate or cardholder bank authorising Citi to automatically collect the amount

Puerto Rico

	Billing Currency	CitiDirect	Direct Debit	ACH
CBCP	USD	Y	Y	Y

CitiDirect

Company will create a Payment Instruction "Book to Card" from saving or corporate checking account.

Direct Debit

Manual "Direct Debit" available for clients using Citi account. Amount is collected on due date based on one-time authorisation from client.

ACH

Direct Debit option available for clients who do not have account with Citibank but with a different bank that is part of the network in Puerto Rico.

4. North America Region (NAM)

United States of America

Payment Options Available

Citi offers three main payment options for clients using commercial cards in the US: electronic payment methods check payments and in some cases CitiManager payments.

	Billing Currency	Electronic Funds Transfer	Check	CitiManager
IBIP / IBCP / CBCP	USD	Y (with some limitations)	Y	Y (IBIP only)

Electronic Funds Transfer

Electronic payments are the preferred option for Citi clients. Generally, payments made electronically are sent in two parts: one part for the monetary part; one for the posting information, also known as remittance details.

Citi Commercial Cards offers three methods for remitting electronic payments. These are:

- Customer-initiated ACH
- Auto Pay
- Wire Transfer

Customer-initiated ACH

The National Automated Clearing House Association (NACHA) develops and manages the standards for remitting settlement to financial institutions in the US.

The ACH formats supported by Citi Commercial cards are:

Format	Separate Detail File Needed?	Can Use Tokenization?
CTX (Corporate Trade Exchange)	No	Yes
CCD	Yes	No
CCD+	Yes	No

ACH payments are initiated through your disbursement bank. Your disbursement bank will typically have software or other access methods to receive an ACH instruction from you. Please contact your bank for particular procedures, rules and other guidelines, such as cut-off times. The information below about ACH payments provides guidance on how the structure of an ACH payment works to credit your commercial card accounts. There are two types of ACH – CTX and CCD.

ACH CTX

The ACH CTX is the most common format used to effect commercial payments. The CTX format allows payment of multiple accounts with a single payment amount. This is the preferred method for making payments, when you will be remitting payments to individual accounts, such as those for an Individual Bill-Corporate Pay (IBCP) or Corporate Bill-Corporate Pay (CBCP) program. CTX payments consist of two primary components: the payment instruction that transmits funds, and the addenda record(s) that detail the amount to be posted to each individual account.

For the payment component of the ACH CTX, your disbursing bank will ask the following information of you. Provide this information in the base transaction record.

Payment Routing Instruction	Value to use for Citi Commercial Card Payments
Bank Name	Citibank N.A.
Routing and Transit (ABA)	091409571
"Pay To" Account Number	Commercial card billing account number, unless remit file is provided separately If you are remitting payment for more than one account, you will enter the 1 st 6 digits of your account numbers (called the BIN), followed by 10 zeroes. The individual account numbers will be provided in the *RMR segment of the addenda record.
Special Note for Tokenization Clients	Clients who participate in the Citi Tokenization service should use the same method, but the individual addenda records should contain the token account numbers.

Your ACH CTX will have one or more addenda records that provide the posting instructions for each individual account being paid. The maximum number of addenda records (card or account numbers that are to be credited) supported in the CTX format is 9,999. When paying more than 9,999 accounts, multiple CTX payments will be needed. Each CTX payment amount sent must equal the sum of the amounts in the individual payment addenda records.

ACH CCD

Unlike the ACH CTX, the CCD format is limited to a single addenda record. Because of this, it is not a recommended payment format for company payments, except where a single, central bill is being paid. When using CCD to pay multiple accounts, it is recommended to use the Global Combi-pay format for the posting details.

Details presented below will be needed to make ACH CCD payment but please also check requirements of your disbursement bank to make sure payment is sent without issues.

Payment Routing Instruction	Value to Use for Citi Commercial Card Payments
Bank Name	Citibank N.A.
Routing and Transit (ABA)	091409571
"Pay To" Account Number	Your full 16 Digit Commercial Card Billing Account Number
Record Type 5 instruction	Insert your company name in the record type 5, to ensure proper crediting of the payment.

Special note for the U.S. Federal Government agencies:

Citibank is unable to accept an ACH CCD payment, when it includes Prompt Payment Act (PPA) interest adjustments.

Payments for PPA interest adjustments should be sent as a separate transaction, or use the CCD+ / CTX formats instead.

Auto Pay Payment

Auto Pay is an instruction for your company bank authorising Citi to automatically collect the amount due from the statement on the payment due date.

Auto Pay is available only for centrally billed programs that are set up to be paid based on Citi's statements, and not your company's expense reports (i.e. Citi pulls funds for the total amount due on your statement each billing period). Implementation Manager or Customer Account Specialist will help you set up Auto Pay.

It is important to remember, there may be associated agreements and possible changes in contract terms that will need to be defined before processing can begin.

Auto Pay is not available for individually billed / individually paid programs.

For our clients that may need it, our Tax ID information is:

Tax Info	Values
Name	Citibank, South Dakota
Tax ID (DDA payments only)	13-5266470
Company ID	1135266470
Originator ID	091409571

Wire Transfer Payments

Wire transfers are electronic payment instructions delivered through the banking system. These instructions follow the format and guidelines provided by the Federal Reserve Bank; however, each financial institution may set its own policies and procedures with respect to the actual information required to be provided. You will need to work with your disbursement bank on the procedures you will need to follow to remit payments using this method. Wire transfers have a cut-off time that is early, especially for those whose disbursements are made from other than the Eastern Time zone. In addition, the space available to remit posting details is limited, so in most cases, you will need to remit your payment with a separate posting details file. The Global Combi-pay format is available for this purpose. Refer to the Global Combi-Pay section of this document

There are some data points that you will need to provide your bank in order to ensure the wire transfer reaches Citi. That data is provided in the table to follow.

Payment Routing Instructions	Value to Use for Citibank Commercial Card Payments
Routing and Transit (ABA) Number	021000089
Credit Account	30880985
Bank Name	Citibank N.A.
Credit Account Name	CBNA Incoming Settlement Account
"Pay To" Account Number	Your full 16 Digit Commercial Card Billing Account Number. Wires are for 1 Payment per Account. See Note above**
Swift Code: (Only needed if client makes payments from overseas)	CitiUS33

Checks

Check payments are processed through our service center located in the US.

CitiManager offers electronic statements, and the PDF version of the statement includes the payment address. Because the process is automated, it is important to include the stub with your check.

The stub is a "tear off" located at the top of the first page of your invoice. Checks received without a stub are processed as exceptions. This could result in a delay in your receiving credit for the payment. It is also important to include the **full 16-Digit Billing Account number on the check**. This will facilitate posting, in the event that the check becomes separated from the stub.

Checks that are remitted in check and list format (i.e., one check to pay several accounts) are also handled as exceptions. The payment list, where possible, should be attached to the check. Where that is not possible, a reference number should be included on both the check and the list, to ensure the two documents can be matched if they become separated.

Checks may be sent at any time during a month. Payment is not considered received until the amount has been posted to your account.

Check Payment Remittance Location:

Citibank processes check payments through a facility in **Phoenix, AZ**.

Regular **single-check-for-single-payment** check remittances should be sent to the following address:

- Citibank, P.O. Box 78025, Phoenix, AZ 85062-8025

Check-and-List and other "exception" type payments should be sent to this address:

- Citibank, P.O. Box 78025, Phoenix, AZ 85062-8025

Courier payments should be sent to this address:

- Citibank, Attn: Payment Processing Center 78025, 1820 E. Sky Harbor Circle South, Ste 150, Phoenix AZ 85034.

CitiManager Payments

Some corporate clients permit individually-billed card programs to accept payments from cardholders. This is performed through the CitiManager system. Web or mobile versions can be enabled for this upon request. Payments made by cardholders through the CitiManager system are effected using the ACH debit process.

Payment Adjustments: Debits

A payment to your Citi Commercial Card account is a credit transaction. There may be times, however, when the amount of the payment is a debit value; for example, when there is an account with a credit balance, and your company wishes a refund of the credit balance. In those circumstances, you may remit a debit payment amount, or a payment adjustment. Debit entries are available only for CTX and Global Combi-pay GCP) formats in NAM.

Canada

Payment Options Available

Similar to USA, in Canada, Citi also offers various payment options depending on program billing type (Individually Billed Individually Paid / Individually Billed Company Paid / Centrally Billed Company Paid).

There are two main payment options available for clients in Canada: Electronic Funds Transfer (EFT) and Cheques. However not all of those options are available for all program types.

	Billing Currency	Cheque	Electronic Funds Transfer
IBIP / IBCP / CBCP	CAD	Y	Y

	Individually Billed	Centrally Billed
Individually Paid	Computer and Phone Banking (EFT)	-
	Cheque	-
Company Paid	Electronic Data Interchange EDI (EFT)	Electronic Data Interchange (EDI) (EFT)
	Wire with ACH (Exception Process) (EFT)	Wire with additional ACH (Exception Process) (EFT)
	-	Wire payment (EFT)
	-	Cheque
	-	Auto Pay

Please note that there are no retail Citi branch locations in Canada with walk-in service to make a payment.

In Canada your payment will be directed by your disbursement bank to the Citi bank account at the Royal Bank of Canada (Citi's "clearing" bank), and from there the funds will be posted as a payment to your Commercial Card account.

Cheque

You can mail a cheque directly to Citi to pay your Commercial Card account. Use the specific address on your Commercial Card billing statement, there are no Citi branch banks where you can mail or carry your payment.

It is required that you write your 16-digit account number on your cheque, and to expedite processing please include the payment coupon from your monthly billing statement. If you do not have the payment coupon from your statement you must write the 16-digit Commercial Card account number in the "Memo" portion of your cheque, and please allow for additional processing time in this case.

Cheques sent by Post:

What You will Need	Time Allowed
Allocation Details: Citi mailing address in English:	16-digit card/ billing account number. Citi Cards Canada Inc - Corporate Cards PO Box 2053 STN B / CP 2053 Succ B Mississauga, ON L4Y 4H0 Seven to ten business days

Cheques sent by Courier:

What You will Need	Time Allowed
Allocation Details: Citi Mailing Address:	16-digit card/ billing account number. Citi Cards Canada Inc. – Corporate Cards Exception Payment Processing Room 165 5900 Hurontario Street, Mississauga, ON L5R 0B8 Seven to ten business days

Note: When you are paying more than one billing account with a single cheque you must include in the same mailing envelope a clear list of the associated accounts, and the amount for each.

Electronic Funds Transfers

You may choose from various Electronic Funds Transfers:

- Computer and Phone Banking
- Auto Pay
- Wire Payment
- Electronic Data Interchange “EDI”
- ACH with Wire Exception Process

Computer and Phone Banking

Employee cardholders can use their own personal Canadian financial institution to make a payment to their Citi Commercial Card. Cardholders should check with their bank to see if they offer online or telephone services for a one-time payment.

What You will Need	Remittance Details	Time Allowed
Bank Address:	Royal Bank of Canada 180 Wellington St. W Toronto ON M5J 1J1	2 business day
Bank Account Number:	1006857	
Transit Number:	07172	
Bank Number:	003	
Account Name:	Citibank	
Commercial Account Number:	(16-digit card number)	
SWIFT Code:	ROYCCAT2	

Auto Pay

Auto Pay is your authorisation for Citi to automatically withdraw funds from your disbursement banking account available for corporate paid programs. For centrally billed Commercial Card accounts, Citi will automatically monitor the “Amount Due” and then withdraw that amount on the “Payment Due Date,” or the prior business day when that date falls on a weekend or holiday.

When the funds have been debited, the payment descriptor on your bank account should identify the transaction as a “PREAUTHORIZED DEBIT CITI PMNT”, it will not refer to a specific Commercial Card account. Your company does not receive an e-mail notification of each payment; please monitor your billing statement for the specific amount and date details.

During the initial one-time setup, you will have an authorized representative from your company sign a Pre-Authorized Debit Authorization Form and return that to Citi. You should not make any modification to the authorization form without consent from our legal counsel.

It takes approximately three to four weeks to set up or change this process.

Auto Pay is not available for individually billed programs.

Wire Payment

You can initiate a Wire Payment from your disbursement bank to pay a single Commercial Card billing account. You should make note of the fees that your bank charges to send a Wire Payment, since you may prefer a different method when you have many Commercial Card billing accounts to pay.

The funds are to be sent to the Royal Bank of Canada, which is the clearing bank for Citi.

Note: Your Commercial Card 16-digit billing account number must be listed in the “Beneficiary” line of **each** Wire Payment. Ensure the wire has a clear identified that indicates your name as a client..

What You will Need	Remittance Details:	Time Allowed
Bank Address:	Royal Bank of Canada 180 Wellington St. W Toronto, ON M5J 1J1	1 business day
Bank Account Number:	1006857	
Transit Number:	07172	

What You will Need	Remittance Details:	Time Allowed
Bank Number:	003	
Account Name:	Citibank	
Commercial Account Number:	(Your 16-digit billing account number)	
SWIFT Code:	ROYCCAT2	

Electronic Data Interchange “EDI”

An EDI 820 file is an electronic instruction you send to your disbursement bank to pay one or more individual-bill cards or central-bill Billing accounts. The file contains an “ISA” envelope, which describes the file format. In Canada we are only able to process a format of “CTX” (“CCD” is not allowed). The bank account for Citi to receive funds at Royal Bank of Canada is described in the “BPR” header and the details about the Commercial Card accounts themselves are each in their own “RMR” detail record.

An EDI file is created by your technical organisation, typically using information extracted in your Accounts Payable system about invoices to be paid. Citi will accept any EDI 820 layout versions 3050 or above; however, you must insert specific details in specific locations in the file in order for it to be recognised and processed automatically in the Canadian banking system. If you are interested in using this payment option, please review the specific requirements carefully to make sure that you can output each of them in this format without interfering with any existing vendor processes you have.

You deliver the file to your disbursement bank and they use the information to debit your bank account before they forward it to Royal Bank of Canada (Citi’s clearing bank). An EDI file must be sent through the banking system “wrapped” per the normal standard; it cannot be sent “unwrapped” in the easier-to-read form.

EDI file contains generic reference to Citi Commercial Cards (the “BIN” number in the N2 segment) which instructs the Royal Bank of Canada to automatically forward the file to Citi through the banking system. In the file are also the specific details that describe which Commercial Card accounts are to be paid.

ACH with Wire Exception Process

The “ACH” payment mechanism common in the U.S. does not exist in the Canadian banking networks; however, that file format can be used as an exception process when you need to pay multiple accounts. It is recommended you first consider using an EDI 820 file since with any exception process, especially over multiple days, there is always a concern for the constant monitoring of errors and potential delays.

This payment process must be conducted over two consecutive business days. You must first send a Wire payment and the following business day you will send a properly formatted ACH file directly to Citi. Citi will monitor the arrival of the funds on the prior day, extract the necessary details from the ACH-formatted file and distribute the total amount of the funds for posting to the various accounts described in the file.

An ACH file is created by your technical organisation, typically using information extracted in your Accounts Payable system about invoices to be paid. You should consult with them about where this information originates, especially if it comes from a third-party expensing tool (like Concur). You deliver the ACH file to Citi using one of the secure transmission methods that are used for other types of data files.

The ACH detail file is used to pay multiple Commercial Card accounts; they can be individual-bill cards or central-bill Billing accounts. Citi will accept ACH version “CCD” or “CTX” for Canada. The ACH format in general is a “fixed-position” file with 94 characters; however, in this exception case the detail inside the “7” record is “delimited” in an EDI style (using asterisks).

5. Global Combi Pay Payment Option

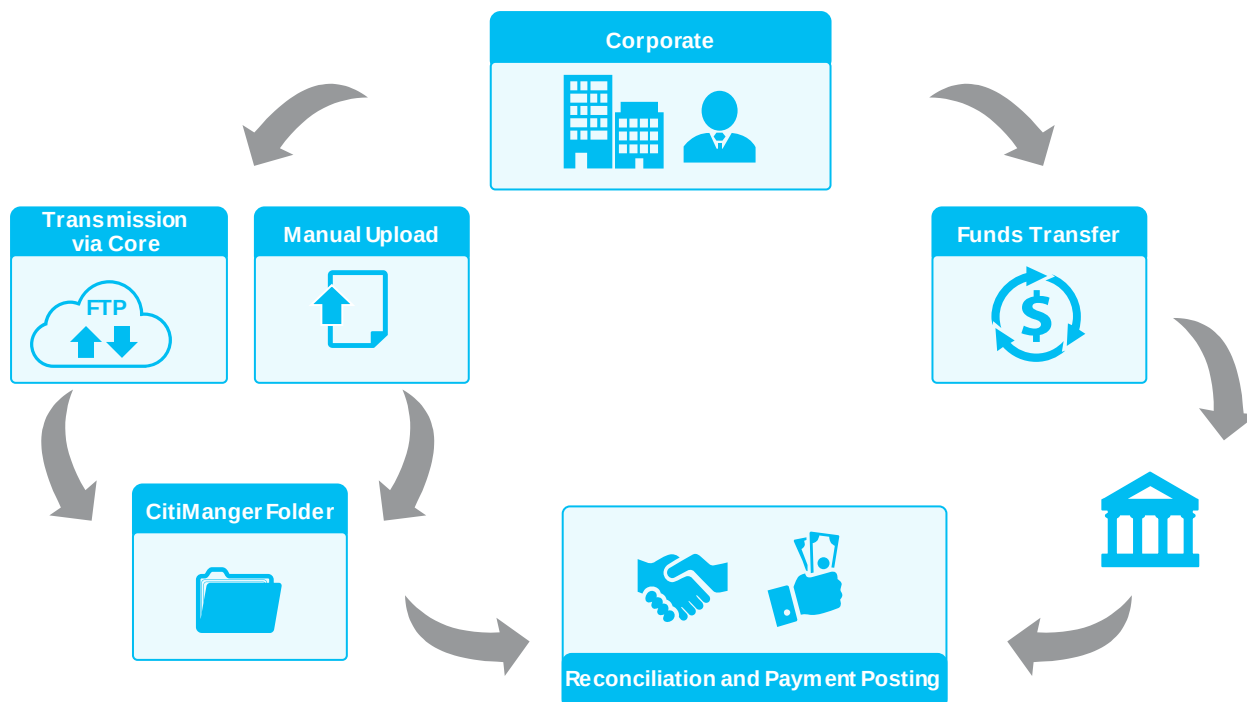

Global Combi Pay (GCP)

Global Combi Pay is payment option available in most of the countries. Your company can decide to make one payment for many cards/accounts and provide to Citi separate remit file with allocation details.

This option simplifies payment for Individually Billed Company Paid programs.

Remit file can be either uploaded manually by Program Administrator directly to CitiManager Library folder or it can be sent automatically by your expense management system to Citi.

Remittance File Process

File setup will be coordinated either by your Implementation Manager, in case of new programs, or your Customer Account Specialist/Citi Support Team for existing program.

Availability

The GCP will support payments for most commercial card programs where Combi Pay formats are accepted.

The file structure remains the same, regardless of the country for which payments are being made. There should be one GCP file for each currency and/or country. For example, if remitting payments for both US dollars and Canadian dollars, there will be two files.

Frequency

Your company can remit the GCP file at any time. Multiple payments per day are permitted; however, they must be timed to be sent not sooner than thirty (30) minutes apart. Files should be uniquely named to avoid over-writing an earlier file.

Limitations

- The GCP is available in most, but not all, commercial card markets:
 - EMEA – all countries except for Israel, Kazakhstan, Pakistan, Russia, Ukraine
 - LATAM – available in Argentina, Brazil and Mexico
 - NAM – available in US and Canada

- APAC – all countries except for South Korea, China, Indonesia (currently in testing)
- The maximum number of records permitted in a single file is 9,992.
- If you wish to receive data with local language characters, a separate file may be required.
- Debit entries are not supported in EMEA

More details about Combi Pay/ Single Pay can be provided by your Citi representative.

Appendix A – Glossary

EFT	Electronic Funds Transfer – Transfer between sending bank and receiving bank. There are various EFT types available: Direct Debit, ACH, Wire Transfer, RTGS etc.
ACH	Electronic bank-to-bank transfer processed by the Automated Clearing House network. Available mainly for domestic payments.
Wire Transfer	Electronic fund transfers processed individually and sent straight from the sending bank to the receiving bank. They are usually faster than ACH and involve additional cost. Available both for domestic and international payment transfers.
EDI	Electronic Data Interchange – instruction file and format sent together with the payment to provide allocation details.
Direct Debit	One of electronic funds transfer options. Instruction for corporate or cardholder bank authorising Citi to automatically collect the amount due from the statement on the payment due date.
JomPay	Online payment system in Malaysia. Jompay can be instructed from any banks in Malaysia that is offering JomPay payment method from their internet or mobile banking (currently 42 banks).
AXS	Online payment system available in Singapore. AXS Stations: Cardholder can initiate the payment through AXS Terminals (withATM card)/e-station website or mobile app.
PPS	PPS is a 24-hour bill payment service, which allows settling of a payment via phone or Internet.
BPAY	BPAY is a payment option available for cardholders in Australia. Payment can be made via telephone or internet. BPAY can be done only through Australian Bank Account.
RTGS	Real Time Gross Settlement is an electronic form of funds transfer where the transmission takes place on a real time basis.
CitiDirect	Electronic Banking System, in which the Company generates a payment instruction debiting their account and crediting the cards account. The payment method is Book to Card and can be done as a single transaction or file upload. Payments are made through layout instruction (Paylink 1020) or manual input.
Check/Cheque	Written, dated and signed instrument that contains an order directing a bank to pay a definite sum of money to a payee. In most of the countries, cheque needs to be deposited in branch.

IRS Circular 230 Disclosure: Citigroup Inc. and its affiliates do not provide tax or legal advice. Any discussion of tax matters in these materials (i) is not intended or written to be used, and cannot be used or relied upon, by you for the purpose of avoiding any tax penalties and (ii) may have been written in connection with the "promotion or marketing" of any transaction contemplated hereby ("Transaction"). Accordingly, you should seek advice based on your particular circumstances from an independent tax advisor.

Citi believes that sustainability is good business practice. We work closely with our clients, peer financial institutions, NGOs and other partners to finance solutions to climate change, develop industry standards, reduce our own environmental footprint, and engage with stakeholders to advance shared learning and solutions. Citi's Sustainable Progress strategy focuses on sustainability performance across three pillars: Environmental Finance; Environmental and Social Risk Management; and Operations and Supply Chain. Our cornerstone initiative is our \$100 Billion Environmental Finance Goal – to lend, invest and facilitate \$100 billion over 10 years to activities focused on environmental and climate solutions.
